

Section 1: Identification of the Product and the Manufacturer

Product form: Granular powder
Substance name: Pozalite
Synonyms: n/a

Manufacturer

Stockton Products Phone: 1-877-862-5866
4675 Vandenberg Drive Fax: 1-702-651-1303
N. Las Vegas, NV 89081

Emergency Telephone Number

1-877-862-5866

Section 2: Hazards identification

Classification of the substance or mixture:

Irritant

Signal Word:

WARNING

Labeling (GHS):

Irritant

Other hazards:

No data available.

Hazard Statements:

- Inhalation: May be harmful in the case of gross inhalation. Lung scarring may be produced which may lead to pulmonary fibrosis possibly aggravating other medical conditions.
- Eyes: Dusts may cause eye irritation.
- Skin: Dusts may cause skin irritation.
- Ingestion: May cause gastrointestinal harm if ingested. Not a likely route of exposure under normal product handling conditions.

Section 3: Composition/information on ingredients

Chemical Name

Proprietary Component 1
Proprietary Component 2

Section 4: First aid measures

First-aid measures general:	Remove product from exposed portion of body, seek medical attention.
First-aid measures after inhalation:	For gross inhalation, remove person immediately to fresh air and if needed initiate CPR. Seek medical treatment as needed.
First-aid measures after skin contact:	For skin contact, flush with large amounts of water. If irritation persists, seek medical attention.
First-aid measures after eye contact:	Immediately flush eyes with copious amounts of water for at least fifteen minutes. If irritation persists, seek medical treatment.
First-aid measures after ingestion:	If the material is swallowed, seek immediate medical advice or attention, do not induce vomiting.

Most important symptoms and effects, both acute and delayed

Eyes:	Irritation
Skin:	Irritation
Inhalation:	Irritation, in the case of gross inhalation lung scarring may be produced which may lead to pulmonary fibrosis possibly aggravating other medical conditions.
Chronic Effects:	Gross inhalation may lead to lung scarring which may produce pulmonary fibrosis and aggravate underlying medical conditions.

Section 5: Firefighting measures

Extinguishing media

Suitable extinguishing media:	Dry chemical, water, carbon dioxide, or foam
Unsuitable extinguishing media:	None

Special hazards arising from the substance or mixture

Fire hazard:	None
Explosion hazard:	None
Reactivity:	None under normal conditions.

Advice for firefighters

Firefighting instructions:	Use appropriate extinguishing media for surrounding fire.
Protection during firefighting:	Firefighters should wear full protective gear.

Section 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

General measures: Use dustless systems for handling, storage, and clean up so that airborne dust does not exceed the permissible exposure limit. Use adequate ventilation and dust collection. Practice good housekeeping. Do not permit dust to collect on walls, floors, sills, ledges, machinery or equipment.

For non-emergency personnel

Protective equipment: Safety glasses/goggles, gloves
Emergency procedures: In the event of a spill, isolate the area and keep unnecessary personnel away. Use dustless methods (vacuum) and place into closable container for disposal or flush with water. Do not dry sweep. Care should be taken to avoid high aerosol dust concentration. Spilled material may become very slippery when wet with water, grease, oil, gasoline or solvents.

For emergency responders

Protective equipment: Safety glasses/goggles, impervious gloves, and respiratory protection if airborne concentration is above the applicable exposure limits. Use a NIOSH approved respirator.
Emergency procedures: See non-emergency personnel procedures.

Environmental precautions

None

Section 7: Handling and storage

Precautions for safe handling

Shelf Life: Unknown
Additional hazards when processed: None
Precautions for safe handling: Avoid dust generation while handling. Use with adequate ventilation. Wash or vacuum clothing which has become dusty.
Storage conditions: Protect packaging from breakage or spills.

Section 8: Exposure controls/personal protection

Engineering Controls: Provide adequate local exhaust ventilation to maintain worker exposure below exposure limits.
Eye/Face Protection Requirements: Wear safety glasses with side shields. Emergency eyewash is recommended in the event dust gets into eyes.
Skin Protection Requirements: Wear impervious gloves for prolonged contact.
Respiratory Protection Requirements: If airborne concentrations are above the applicable exposure limits, use

Pozalite Safety Data Sheet

NIOSH approved respiratory protection.

Exposure Guidelines

Proprietary Component 2	ACGIH	2 mg/m3 Ceiling
(Trade Secret):	OSHA	2 mg/m3 Ceiling
	NIOSH	2 mg/m3 Ceiling

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state:	Granular powder
Appearance:	White, light gray, tan or reddish tan
Odor:	Earthy
pH:	N/A
Melting point:	None
Freezing point:	None
Boiling point:	>1000 degrees F
Flash point:	N/A
UEL:	N/A
LEL:	N/A
Vapor pressure:	None
Relative vapor density at 20 °C:	None
Solubility:	Insoluble
%Volatiles:	ND
VOC:	ND

Section 10: Stability and reactivity

Reactivity:	This is a stable material.
Chemical stability:	Avoid dust generation.
Possibility of hazardous reactions:	Will not occur.
Conditions to avoid:	None
Incompatible materials:	None
Hazardous decomposition product:	None

Pozalite Safety Data Sheet

Section 11: Toxicological information

Skin corrosion:	Some mild irritation with extended exposure time.
Serious eye damage/irritation:	None as long as dust is removed immediately.
Respiratory or skin sensitization:	May be harmful if inhaled in sufficient quantities, not a sensitizer.
Germ cell mutagenicity:	None
Carcinogenicity:	This product may contain some free silica and crystalline silica which has been classified as a carcinogen by OSHA, IARC and ACGIC. None of the components are listed by ACGIH, IARC, OSHA, NIOSH or NTP.
Reproductive toxicity:	None
Specific target organ toxicity (single exposure):	None
Specific target organ toxicity (repeated exposure):	Lungs when exposed to large quantities of dust.
Aspiration hazard:	Do not inhale, or swallow, some hazard to lungs and to gastrointestinal system.
Symptoms/injuries after inhalation:	Mild cough
Symptoms/injuries after eye contact:	Eye redness
Symptoms/injuries after ingestion:	In large quantities may cause gastrointestinal discomfort.

Section 12: Ecological information

Environmental Hazards

No information available for the product.

Component Analysis – Ecotoxicity – Aquatic Toxicity

Proprietary Component 2 (Trade Secret) Test & Species: 96 Hour LC50 Oncorhynchus mykiss - 45.4mg/L (static)

Section 13: Disposal considerations

Waste Disposal:	Not a hazardous waste, no EPA Waste Numbers are applicable for this product's components.
Contaminated Materials:	Disposal in accordance with local, state and federal regulations.
Container Disposal:	Disposal in accordance with local, state and federal regulations.

Section 14: Transport information

Product Label:	Pozalite
UN Number:	None
DOT Shipping Name:	This material is not considered a hazardous material under DOT regulations.
DOT Hazard Class:	None

Section 15: Regulatory information

EEC Symbols and Indications of Danger: This material contains one or more of the following chemicals required to be identified under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 37264) ad/or CERCLA (40 CFR 302.4).

CERCLA Hazardous Substances: Proprietary Component 2 (Trade Secret)
1000 lb. (454 kg) final RQ

Component Analysis – WHMIS IDL: The following components are identified under the Canadian Hazardous Products Act Ingredient Disclosure List:
Proprietary Component 2 (Trade Secret) 1%

State Regulations – The following components appear on one or more of the following state hazardous substances lists:

Proprietary Component 2 (Trade Secret) is listed in CA, MA, MN, NJ, PA & RI

Component Analysis – Inventory

Component	CAS #	TSCA	CAN	EEC
Proprietary #1	Trade Secret	Yes	NDSL	EINECS
Proprietary #2	Trade Secret	Yes	DSL	EINECS

Section 16: Other information

Indication of changes

NFPA health hazard:	1
NFPA fire hazard:	0
NFPA reactivity:	0

HMIS Rating

Health:	1
Flammability:	0
Reactivity:	0
Special Hazard:	None

Key/Legend

ACGIH – American Conference of Governmental Industrial Hygienists
ARC – International Agency for Research on Cancer
EPA- Environmental Protection Agency
NIOSH – National Institute for Occupational Safety and Health

NJTSR – New Jersey Trade Secret Registry
NTP – National Toxicology Program
OSHA – Occupational Safety and Health Administration
TSCA – Toxic Substance Control Act

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product. The information contained herein relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is to the best of our knowledge and belief accurate and reliable as of the date compiled. However, no representation, warranty or guarantee expressed or implied, is made as to its accuracy, reliability or completeness. It is the user's responsibility to review the suitability and completeness of information for its particular use. This SDS provides selected regulatory information on this product, including its components and is not intended to include all regulations. It is the responsibility of the user to know and comply with all applicable rules, regulations, and laws relating to the product being used.
