PNPOA: Plastic Nose PopOutAid™

- Available in Galvanized

The plastic nose version of our PopOutAid™. Used to form decorative pop outs around windows and doors as well as other ornamental trim details. Unique wire pattern and shape provides excellent "Keying" of the stucco to the welded wire when forming and finishing the pop out. The plastic nose provides a depth guide that assures proper embedment of the wire in the brown coat and extra confidence in harsh climates and environments.

Per Carton
